Features

WTE RANGE

General features

- Design has privileged modularity, each unit is made up from standard sections, whose elements can be easily removed
- Parting from the WTE 563 for the $\varnothing$ 500 range, from the WTE 663 for the $\varnothing$ 630 range, models are found that are made up from two flanked units, thus making vertical installation impossible.

All of the other models are designed for both horizontal and vertical installation. The support feet supplied can be used in both cases.

- To ease the connection of the electric system chillers, the fan motors are wired in the factory (excluding 350 diameter range) and connected to a junction box positioned on the collectors side and protected along with the latter by a lid that can be easily removed.

Construction features

- They are designed for outdoor installation and therefore manufactured with technologies and materials that guarantee resistance to atmospheric agents
- Coils with staggered copper pipes and corrugated or mechanically expanded aluminium louvers. The coils are fixed to the shoulders in a way to prevent pipe breakage due to any vibrations.
- Iron collectors with GAS threading.
- Latest generation axial fans to guarantee silent functioning and high performance with IP54 protection rating: They are envisioned for D/Y connections and different polarities and allow continuous regulation of the speed via voltage reduction.
- Available versions:
 - (B) basic
 - (S) silent
 - (E) Super silent.

WTA RANGE

General features

- Two exchangers positioned as W
- Two independent cooling circuits
- Two rows of fans with diameter of 800mm
- From 4 to 16 fans
- Separate ventilation compartments for each fan

Construction features

- They are designed for outdoor installation and therefore manufactured with technologies and materials that guarantee resistance to atmospheric agents
- High efficiency louvred heat exchangers
- Latest generation axial fans to guarantee silent functioning and high performance with IP54 protection rating: The standard units are supplied with the fans wired onto the junction box. Air flow separator for each individual fan.
- Available versions:
 - (BT) basic 6-pole
 - (ST) silent 8-pole
 - (ET) Super silent 12-pole

WTR RANGE

General features

- V exchangers configuration
- Two independent cooling circuits
- Low noise
- Two rows of fans with diameter of 800mm
- From 4 to 10 fans

Construction features

- They are designed for outdoor installation and therefore manufactured with technologies and materials that guarantee resistance to atmospheric agents
- High efficiency louvred heat exchangers
- Latest generation axial fans to guarantee silent functioning and high performance with IP54 protection rating: The standard units are supplied with the fans wired onto the junction box. Air flow separator for each individual fan.
- Available versions:
 - (BT) basic 6-pole
 - (ST) silent 8-pole
 - (ET) Super silent 12-pole

WTS RANGE

General features

- Two exchangers positioned as V
- Fans diameter 500 mm
- From 2 to 5 fans
- Separate ventilation compartments for each fan

Construction features

- They are designed for outdoor installation and therefore manufactured with technologies and mate-

- rials that guarantee resistance to atmospheric agents
- High efficiency louvred heat exchangers
- Latest generation axial fans to guarantee silent functioning and high performance with IP54 protection rating. The standard units are supplied with fans wired on junction box. Air flow separator for each individual fan. The extremely small dimensions allow installation in contained spaces, high output power per surface occupied
- Available versions:
 - (BT) basic 4-pole
 - (ST) silent 6-pole
 - (ET) Super silent 8-pole

WTR RANGE

General features

- Two exchangers positioned as V
- Fans diameter 800 mm
- From 2 to 5 fans
- Separate ventilation compartments for each fan

Construction features

- They are designed for outdoor installation and therefore manufactured with technologies and materials that guarantee resistance to atmospheric agents
- High efficiency louvred heat exchangers
- Latest generation axial fans to guarantee silent functioning and high performance with IP54 protection rating: The standard units are supplied with the fans wired onto the junction box. Air flow separator for each individual fan. The extremely small dimensions allow installation in contained spaces, high output power per surface occupied
- Available versions:
 - (BT) basic 6-pole
 - (ST) silent 8-pole
 - (ET) Super silent 12-pole

Choosing the unit

Field configuration:

Code:

WTS-WTE-WTR-WTA-WDR

Fluido:

° - Acqua o acqua glicolata con PS max 6 bar

ø[dm] fans:

3 - 350
5 - 500
6 - 630
8 - 800
9 - 910

N° fans:

* - up 1 to 16

N° rows:

* - up 1 to 6

Motor type:

B - Standard
S - Silenced
E - Extra silenced

Power supply:

T - 400V/3/50Hz
M - 230V/1/ 50Hz

Electrical connection:

D - Triangle
° - mono-phase

The performance refers to the following conditions:

- e Sound pressure measured in free field at a distance of 10m and directionality factor = 2;

- Ta = 25°C
- Twi = 40 °C
- Two = 35 °C
- Glyvol = 34%
