CDF 40 DEHUMIDIFIER

Function

The CDF 40 is an energy efficient and quiet dehumidifier. It works in accordance with the condensation principle. A fan draws the humid air into the dehumidifier and through an evaporator coil. When passing through the evaporator the air is cooled down to below its dew point temperature, and its content of water vapour is condensed into water, which falls into the drip tray and then is led from the drip tray to a drain. The cold, dry air is then passed over the condenser coil where it is re-heated, before leaving the unit at a temperature, which is approx. 5°C higher than at the inlet.

Applications

- Archives
- Museums
- Churches
- Changing rooms
- Waterworks

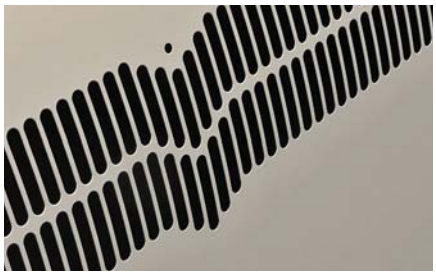
FEATURES

Dehumidifier

- Built into a strong and robust powder coated hot galvanized sheet metal cabinet
- Evaporator and condenser coils are epoxy-coated for high corrosion resistance
- Fixed to the wall by means of a wall mounting strip supplied with the unit
- Condensate outlet located at the bottom. Outlet stub can be connected to a ¾" hose
- Outside connection to mains

Control

- Built in electronic hygrostat and thermostat
- Integrated ON/OFF control of humidity and temperature (electric or water heating coils as accessories)
- 0-VOLT connection for alarm
- 230 V for control valve, exhaust fan and pump/boiler
- RS 485 gate for BMS (Modbus)



Diodes

BLUE:	Power connected, standby mode
GREEN:	Compressor ON, deicing
YELLOW:	Remote pairing mode
RED:	Errors

Defrosting

Active, demand-controlled defrosting is incorporated in the electronic control.

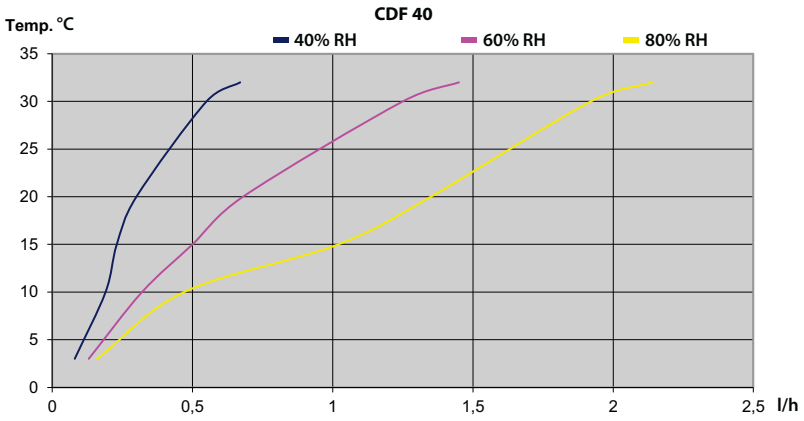
Service

For easy service the refrigerant circuit is supplied with a service valve. The PCB has a USB gate for history data logging for easy fault finding.

TECHNICAL DATA

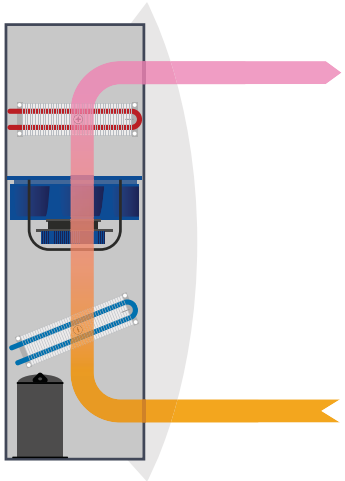
Model	CDF 40
Operating range – humidity	40 – 100 %RH
Operating range – temperature	3 – 32°C
Air volume	400 m³/h
Power supply	1x230 V/50 Hz
Max. ampere consumption	3,4 A
Max. power consumption	0,78 kW
Refrigerant	R407C
Quantity of refrigerant	0,7 kg
Compressor	Rotary
Fan	Radial
Sound level (at 1 metre)	46 dB(A)
Weight	56,5 kg
Filter	G3 PPI 15
Colour (Cabinet/Front)	RAL 9005/9006
Protection class	IPX4
Corrosion protection in accordance with EN/ISO 12944-2	C4

CAPACITY CURVES

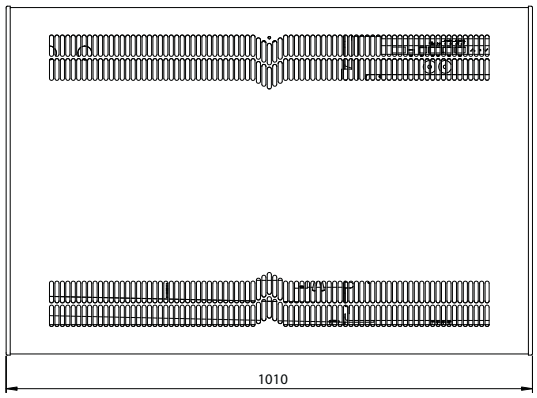


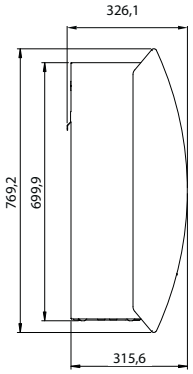
Specific energy consumption (SEC):
0,80 kWh/l at 20°C & 60% RH

INSTALLATION

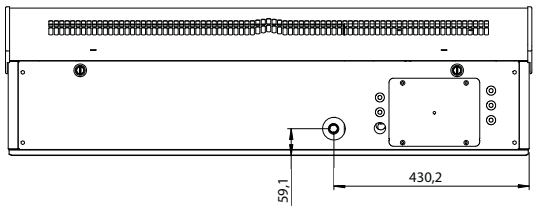


DIMENSIONS CDF 40

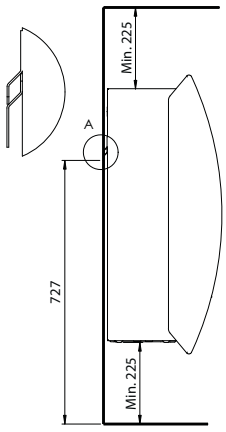




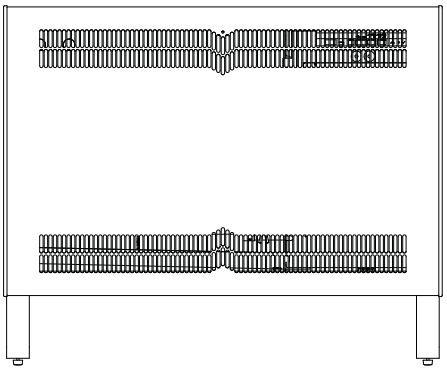
Drain outlet position

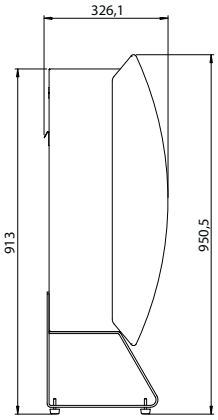


Recommended installation of CDF 40



Floor mounting kit





Accessories
Wireless remote control DRC1
Floor mounting kit
Water heating coils
Control valve for water heating coils
Electric heating coils
Exhaust fans

All dimensions are in mm.

CDF 50 DEHUMIDIFIER

Function

The CDF 50 is an energy efficient and quiet dehumidifier. It works in accordance with the condensation principle. A fan draws the humid air into the dehumidifier and through an evaporator coil. When passing through the evaporator the air is cooled down to below its dew point temperature, and its content of water vapour is condensed into water, which falls into the drip tray and then is led from the drip tray to a drain. The cold, dry air is then passed over the condenser coil where it is re-heated, before leaving the unit at a temperature, which is approx. 5°C higher than at the inlet.

ACCESSORIES CDF 10 – CDF 40 – CDF 50 – CDF 70

Illustration	Accessory	Description	CDF-type	Dantherm No.
	Watertank	White or grey	CDF 10	351615
	Remote control, DRC1	DRC1 is a wireless RH and temperature controller Frequency: 433 mhz Range up to 50 m depending on the conditions Protection class: IP 20 **Functionalities:** • Reading and setting of RH and temperature, alarms and service information • Locking of settings	CDF 40 CDF 50 CDF 70	093455
	Floor mounting kit, 2 pcs.- black	Each bracket to be mounted on each side of the dehumidifier	CDF 40 CDF 50 CDF 70	094332
	Water heating coil 3,2 kW*)	Comprises water heating coil, flexible hose, fittings and gasket *at 80/60° C (See technical specifications for water heating coils on separate page)	CDF 40	094333
	Water heating coil 5,1 kW*)		CDF 50	094334
	Water heating coil 7,4 kW*)		CDF 70	094335
	DN 10 control valve and actuator for water heating coils	Comprises valve and actuator 230 V, ON/OFF (180 seconds from closed to fully open), incl. union nut for Ø 12 cu tube	CDF 40 CDF 50 CDF 70	094340

ACCESSORIES CDF 10 – CDF 40 – CDF 50 – CDF 70

Illustration	Accessory	Description	CDF-type	Dantherm No.
	Electric heating coil 2 kW	Comprises electric heating coil, relays and electric wires	CDF 40	094336
	Electric heating coil 3,5 kW		CDF 50	094337
	Electric heating coil 5 kW		CDF 70	094338
	Exhaust fan, Q = 97 m3/h	The exhaust fan can be used in combination with the CDF to either increase dehumidification capacity or establish outdoor air supply. Relay and electric wire are included.	CDF 40 CDF 50 CDF 70	094339
	Exhaust fan, Q = 185 m3/h		CDF 40 CDF 50 CDF 70	094341
